Presented by Katia Jenkins-Brown

About Me

- 7th grade student at Manhattan Beach Middle School
- Favorite subjects are Art and Band
- I really enjoy drawing...
  - Animals
  - Still life
  - Pokémon
  - But I'm not good at drawing people ☺

Agenda

- Introduction to Tux Paint
- Lines, Shapes, and Colors
- Stamps and Text
- MAGIC!!!
- Demonstration

Tux Paint

- What is Tux Paint?
    - Free computer software for creating art
    - Runs on many different kinds of computers
   - Its fun for all ages!

Tux Paint

- Interface is easy to use and understand

- Works with a mouse and drawing pads

- Plays sounds when tools are used or certain things are drawn

Lines, Shapes, and Colors

- Lines can be drawn freehand or from point to point

- Shapes include squares, circles, ovals, and more

- The Tux Paint palette includes 17 basic colors

- More colors can be made using the color picker
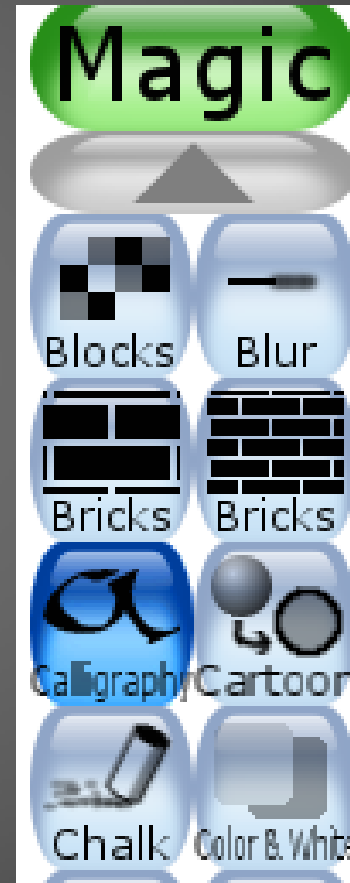

Stamps and Text

- Stamps are pictures that can be added to the canvas

- Stamps can be resized, flipped, and rotated

- Text lets you add words to the canvas

- There are many different fonts and font sizes

- Text might be hard to move after you type it

MAGIC!!!

- "Magic" tools help create special effects on the canvas
- There are more than 50 special effects available
- Some of my favorites are...
  - Kaleidoscope – lets you draw in four-way symmetry
  - Calligraphy – thick lines
  - Fill – fill in enclosed areas with a color
  - Rain – add rain drops

DEMO TIME!

Conclusion

Tux Paint is free, cool, fun software that everyone can use to create art!
