

CentOS Q&A Forum

ScaLE 12x

With your hosts

Jim Perrin

Johnny Hughes

Karsten Wade

Agenda

- Quick history lesson
- Overview of where we are today:
 - SIGs and variants
 - Open governance
 - Focus on users
 - Enable contributors
- Your questions, our answers

Quick History Lesson

Once there was just Red Hat Linux ...

Dark days of enmity ...

Many agree, "This stool needs three legs ..."

How the CentOS Project & Red Hat mash up came about ...

Overview of Where We Are Today

SIGs and variants ...

Open governance ...

Focus on users ...

Enable contributors ...

Your Questions, Our Answers

Follow-Up

#centos-devel on Freenode
