

# WOMEN IN OPEN SOURCE

Exploring the special interests of women in technology and encouraging the use of open source solutions

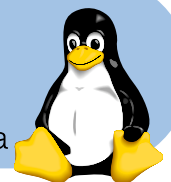

Interested in technology? Heard of Open Source? Not sure how to get involved?

Come to the Southern California Linux Expo's Women In Open Source mini-conference and hear active members of various open source projects speak. Hear advice from women in the technology industry on issues that they have overcome, how to get into the industry and discuss obstacles that you have encountered. Are you a technology teacher? Get valuable ideas on how to encourage young women to get involved in technology and open source software.

SCALE 5x

The Fifth Annual  
**Southern California Linux Expo**

February 10-11, 2007  
Los Angeles, California

For more information on the Women In Open Source mini-conference, visit <http://socallinuxexpo.com/wios07> and also take advantage of largest Open Source Conference and Expo in Southern California, SCALE 5x!
